MASSAGE CHAIR EC-2800

HYBRID

Large Knead Balls

Digital Mecha Control

CYBER-RELAX

THE PIONEER IN MASSAGE CHAIRS

Since 1954

HYBRID

A new massage experience!!

Introducing Fujiiryoki's new hybrid mecha knead ball system.

Large 9cm knead balls with state of the art digital mecha control.

By re-enacting a 'palm' massage (where the base of the palm is used to give a massage), we have been able to realize a gentle, gradual massage over a wider, larger area.

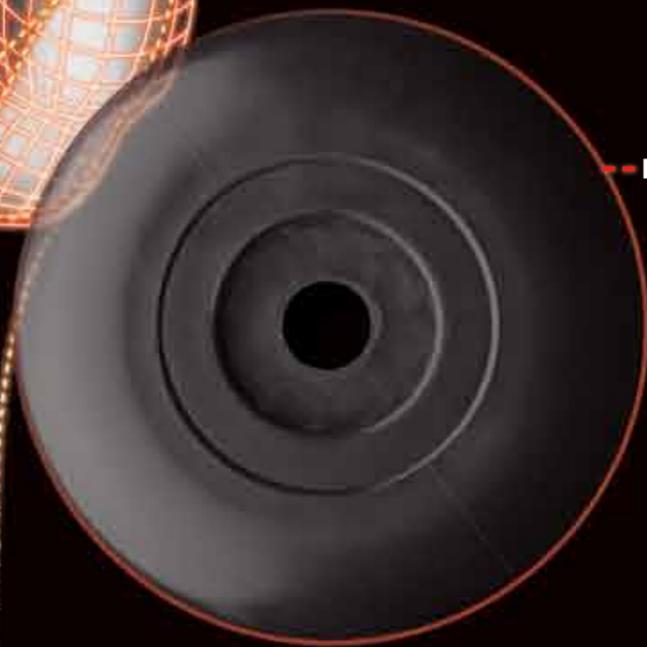

Covering the shoulders to the waist, with just the right amount of pressure, the 9cm knead balls knead and loosen stiff muscles with minimal discomfort for a experience only available from Fujiiryoki's new hybrid mecha knead ball system.

Large, wide profile

Strength Adjustment
2 Levels

Strength Adjustment
8 Levels

25 different massage techniques (including basic knead massages) designed for different purposes and areas of the body.

Discover the distinctive characteristics of the large knead balls around the shoulders and back and especially the wide area massages around the waist.

LEGS Large airbags provide a 'wrapping' massage for the calves, the back of the calves, ankles, foot soles, and the area under the knees.

Airbags Strength Adjustment **2 Levels**

Leg Air Massage

12 airbags wrap the entire legs, from the calves to the feet soles, applying repeated pressure followed by a releasing action to promote blood circulation.

Foot Stretch Function

The airbags firmly hold the legs and pull down to create a stretching massage.

Spring Slide Function

The lower section of the 2-step footrest can be extended to a maximum 16cm to allow adjustment for different sized people.

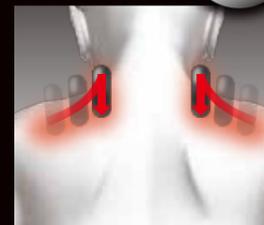

SHOULDER~ARMS

No matter the body shape or size, a comfortable massage for the shoulders and upper arms, from the arms to the fingertips.

Knead Balls Strength Adjustment **8 Levels**

Airbags Strength Adjustment **2 Levels**

Shoulder Muscle Care

Focus on kneading and loosening up of the muscles, moving up from the shoulders to the base of the neck. Particularly effective in relieving stiffness and pain of the muscles.

Expert Knead Massage

Shoulder Care Massage

Airbags rising up from the back gently wrap the shoulders from behind, promoting blood circulation around the shoulder area.

Arm Care Massage

4 airbags, located above and to the side, stimulate points from the arms to the fingertips, relieving stiffness and fatigue of the arms.

Knead Ball Position Adjustment Function

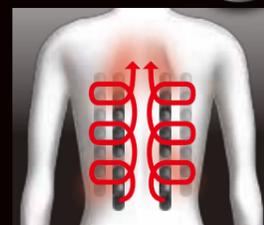

Before commencing the massage, the knead balls will automatically detect the position of the shoulder/neck and make adjustments from 9 different positions to provide the perfect position for different people of different shapes and sizes.

BACK

Effectively kneads and loosens the area around the back and the shoulder blades to relieve stiffness and fatigue.

Knead Balls Strength Adjustment **2 Levels**

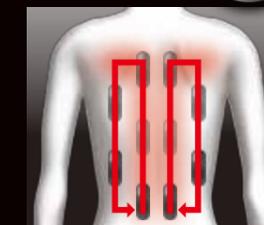

NEW Spine Stretch

A massage which stretches the muscles in the back with side movements moving from the center of the back to the outer areas. Kneads and loosens to relieve pain from stiffness.

Expert Knead Massage

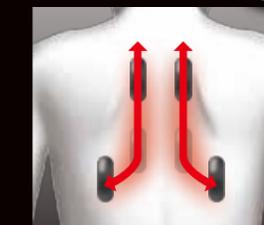

NEW Spine Care

The knead balls travel up and down and stretch the muscles in the entire back. Especially recommended for persons who are troubled by stiffness, pain, and fatigue in their back area caused by work or household labor.

Expert Knead Massage

Shoulder Blade Line

The knead balls trace the shoulder blade line and gently massage the stiff muscles behind the shoulder blades caused by desk work and spending long hours in the same posture.

Expert Knead Massage

Strength Adjustment 2 Levels

Independent Air Strength Area Adjustability

The strength of the air massage is adjustable to 2 levels on each part of the body.

WAIST

Firmly kneads the waist and hip areas, with the airbags wrapping and gently massaging the pelvic area.

Knead Balls Strength Adjustment **8 Levels**

Airbags Strength Adjustment **2 Levels**

KIWAMI-Knead, KIWAMI-Tapping

Recommended for those who suffer from nerve or muscle pain, or general fatigue in the waist/hip areas. Effective pinpoint kneading and tapping for the waist.

Expert Knead Massage

Pelvic Air Massage

The combination of airbags to the side of the thighs and in the seat wrap and gently massage the muscles around the pelvic area from the sides and from below. Staggered movements of the airbags also provide a stretching action for the area around the waist.

* Other kneading and tapping massages for a total 25 different types of basic kneading techniques.

*Images for illustration purposes only.
